Environmental Labelling of Packaging

In compliance with current legislation which introduced the obligation of Environmental Labeling of packaging, Gelli Plast S.r.l. makes available to its users the information necessary for the correct identification and appropriate delivery of the packaging

For this purpose, in the transport documents (DDT) that accompany the goods, there will be a QR code that, once scanned, allows you to access this web page, where you can consult all the information about the packaging used by Gelli Plast S.r.l.

Below is the complete list of packages:
